

ACCPAC[®]

Advantage Series

World-Class Architecture

ACCPAC is a leading provider of a broad range of award-winning Internet-enabled software solutions that empower small and medium-sized enterprises to compete in the New Economy.

Imagine a complete suite of business management solutions developed upon an industry-leading architecture. These products are ready to install and use right out of the box, yet are customizable to meet the unique needs of your company. These signature attributes define ACCPAC Advantage Series™.

Our unmatched reputation for providing dependable, powerful and cost-effective business management systems for more than two decades was built on meeting the needs of customers just like you. If you're looking for superior functionality, integrated e-business technology and rock-solid stability, ACCPAC® has the right solutions for your business today and tomorrow.

As your business requirements grow, our comprehensive Investment Protection Plan allows you to upgrade from one edition to the next. You can transfer your data effortlessly without downtime. There is no need for costly staff retraining—all Advantage Series editions share the same user interface, making it easy for your users to quickly adapt to the next edition. From single-user locations, to corporate environments with hundreds of users, no other products scale like ACCPAC Advantage Series.

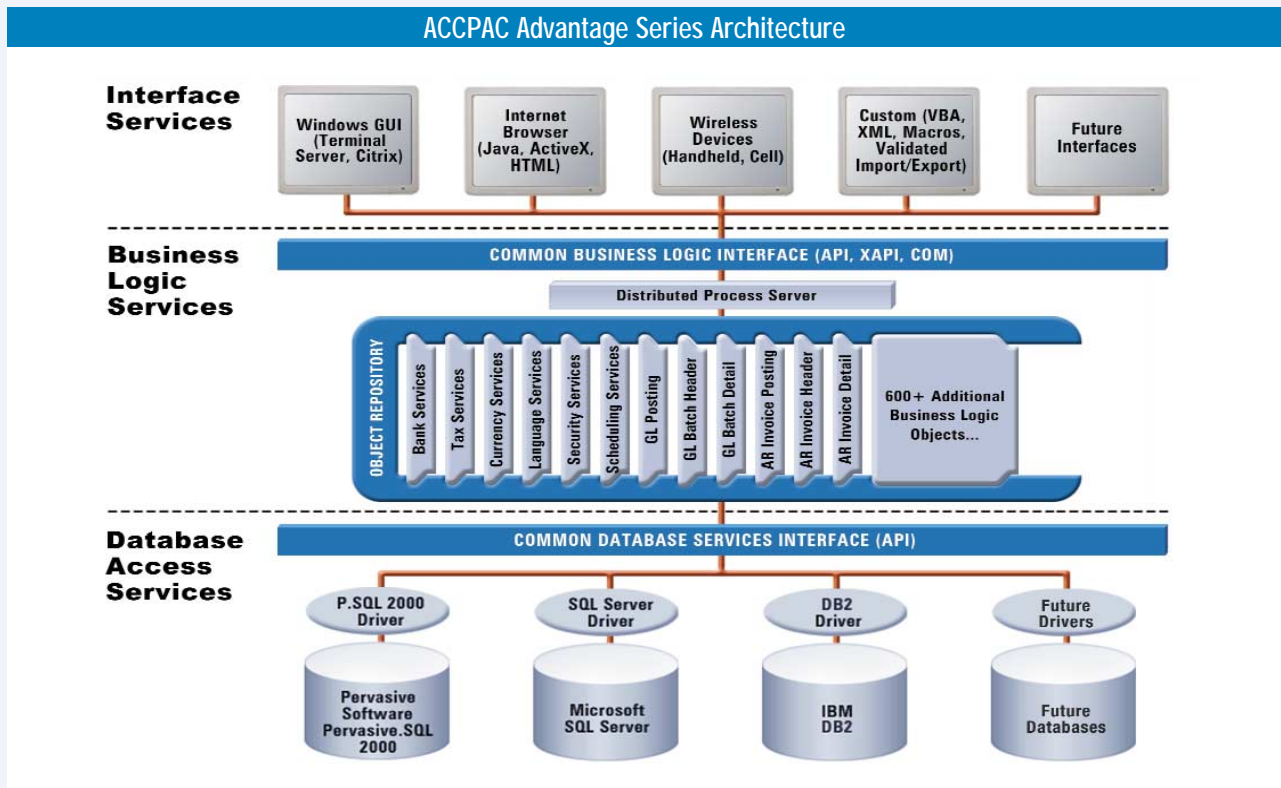

Superior Technology Gives You Competitive Advantage

As technology evolves, your business management solutions must keep pace. ACCPAC Advantage Series is built on a world-class architecture designed to stand the test of time. Its sophisticated object-oriented and layered design allows the business management solution to quickly adapt to new technologies as they evolve.

We also include Microsoft® Visual Basic® for applications to simplify integration with other applications you use every day. In addition, Bank Reconciliation, Import/Export, Optional Fields and report writers are included in all ACCPAC Advantage Series editions. With ACCPAC Advantage Series you get a complete solution—with no surprises down the road. It's easy to set up and easy to use, with wizards that make configuration a breeze—and get you up and running fast with a familiar, easy-to-navigate Windows® interface.

Financial Tools Support Your Global Business

In today's global marketplace competition extends well beyond geographic borders. ACCPAC solutions—available in multiple languages—are designed from the ground up to satisfy the most demanding international requirements. Multicurrency with full euro compliance, support for value-added taxes and GST, and observance of local accounting requirements give you a complete global accounting solution.

ACCPAC Advantage Series is built upon the industry's leading architecture—providing a solution that stands the test of time, addressing your business needs of today and tomorrow.

End-to-End E-Business Solutions

ACCPAC Advantage Series is the foundation for a completely integrated set of end-to-end business management and e-business solutions. From Web store to warehouse, from pre-sales prospecting to post-sales customer care, ACCPAC provides the solutions you need—all tightly integrated with ACCPAC Advantage Series. These solutions include:

- ACCPAC eCRM™
- ACCPAC eTransact™
- ACCPAC iConnect™
- ACCPAC Warehouse Management System™

In addition, ACCPAC Advantage Series enjoys the support of hundreds of developers around the globe who have created numerous vertical solutions to address unique industry-specific requirements.

ACCPAC eCRM

ACCPAC eCRM is a comprehensive set of wireless and Internet-based applications that provide enterprise-wide access to vital customer and partner information. ACCPAC eCRM integrates field sales, internal sales, customer care and marketing with a common customer and partner-focused knowledge base to better manage your business.

Designed from the ground up to provide support for the new realities of customer and partner management—eCRM's unified Internet architecture provides anytime, anywhere access via a Web browser or WAP phone. This advanced architecture allows eCRM to also serve as an Internet and wireless-enabling solution for other applications across your enterprise. In addition, ACCPAC eCRM dramatically reduces implementation costs—one installation on a central server provides Web browser or WAP phone access to your entire enterprise.

ACCPAC eTransact

ACCPAC eTransact is the easiest, fastest, most affordable way to create an effective Web store that integrates with

your back-office accounting system and adapts to the way you do business. This powerful solution makes it easy for new and existing customers to “serve themselves” by shopping and placing orders on the Web. You can deploy eTransact internally or you can choose to deploy it without any investment in expensive hardware, Web infrastructure or specialized in-house staff by subscribing to the hosted version of eTransact at ACCPAC Online™.

ACCPAC iConnect

ACCPAC iConnect provides your employees with real-time access to ACCPAC Advantage Series via the Internet. By providing robust, secure back-office access—at anytime, from anywhere—iConnect makes remote employees and offices more productive, improves customer service and creates opportunities for lower-cost, dispersed office automation. iConnect is comprised of a secure Internet application server and a suite of browser-based Java and ActiveX modules. iConnect modules include: iConnect Server, iConnect Sales Orders, iConnect Purchase Orders, iConnect Payroll and iConnect Receivables.

ACCPAC Warehouse Management System

ACCPAC Warehouse Management System (WMS) is a powerful and feature-rich solution for automating the materials-handling process of wholesale distributors. It works as part of a complete operational solution by interfacing seamlessly with radio frequency hardware, bar-coding systems, shipping systems and other warehouse automation equipment. ACCPAC WMS ensures a better allocation of human resources within the warehouse so that orders are accurately picked and shipped.

Application Hosting

Several ACCPAC solutions including ACCPAC Advantage Series, ACCPAC eTransact and ACCPAC eCRM are available via application service providers (ASP) around the world, including ACCPAC Online, ACCPAC's premier ASP and e-business resource center. Visit www.accpaconline.com for more information about application hosting services.

Creating and maintaining your Web store with eTransact is fast and easy, thanks to its intuitive, user-friendly interface. eTransact builds your store in minutes based on your ACCPAC accounting information.

ACCPAC eCRM is powered by eWare.

ACCPAC Advantage Series

Enterprise Edition

This robust software solution is perfect for your business if you require comprehensive functionality, powerful analysis and reporting, and extensive customization options. ACCPAC Advantage Series™ Enterprise Edition is a comprehensive, multitiered business management system that supports unlimited users. And if you're competing in the global marketplace you'll find the multilingual support and multicurrency capabilities with BASDA EMU accreditation are especially valuable features, included at no added charge.

This enterprise solution is based on the ACCPAC superior object-oriented, multitiered architecture, and offers you an easy upgrade path from ACCPAC Advantage Series Corporate Edition and Discovery Edition. Enterprise Edition includes financial and operations management, e-business and software customization/development solutions. Powerful features include cross-module drilldown, scalable reporting capabilities and global scheduling throughout the system for easy management of routine processing. Embedded Microsoft VBA lets you easily expand, customize and integrate your ACCPAC products with other business applications.

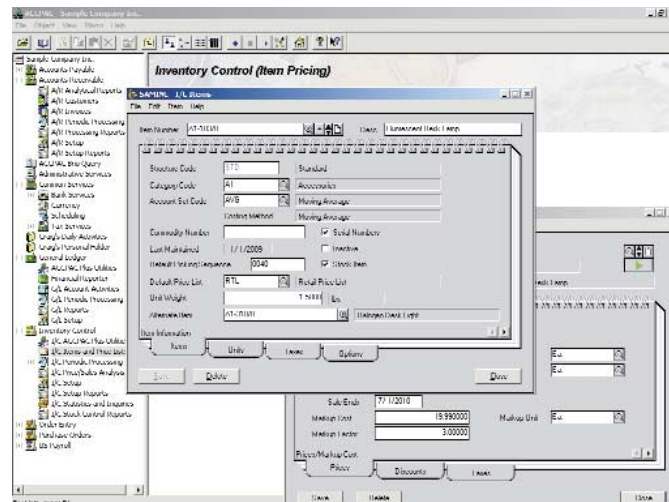

Enterprise Edition remains the ideal choice for those organizations with complex financial, managerial and reporting needs. A highly scalable and functional solution, built on the most adaptable architecture in our market, Enterprise Edition is the right solution for both today and tomorrow. Advanced products such as Intercompany Transactions and the powerful ACCPAC Warehouse Management System set Enterprise Edition apart as a market leader. Multicompany consolidations, N-tier client-server processing and unrivaled foreign currency capabilities provide you with more than a solution—they give you a competitive advantage.

Customer Profile

The Enterprise Edition customer is a medium to large business, typically with multiple locations and a global marketplace. This customer demands a system that is highly scalable—supporting unlimited users and requiring powerful analysis and reporting, customization options, multicurrency and multilingual support.

"Our ACCPAC Advantage Series Enterprise Edition has helped boost employee productivity by 300 percent. With increased automation and integration, accounts payable processing time has decreased by 75 percent, and the time required to close a fiscal period has been reduced by 50 percent."

*Pat Pipp
Chief Financial Officer
Roman, Inc.*

Inventory Control offers a complete warehouse management solution—because you need more than simple stock keeping.

Corporate Edition

ACCPAC Advantage Series™ Corporate Edition is the complete, affordable and expandable business management solution designed for medium-sized accounting environments. It includes financial management and operations management suites, and is the ideal solution for growing businesses. It's perfect if you're looking for a solution for as many as 10 concurrent users.

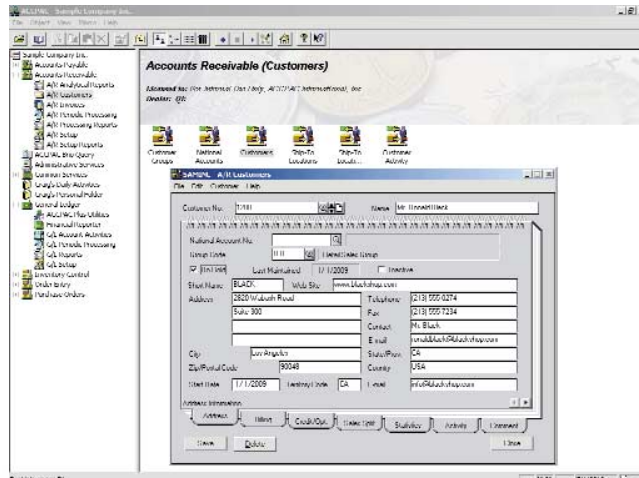

ACCPAC Advantage Series Corporate Edition offers powerful analysis and reporting tools and a complete accounting feature set, with operations management capabilities such as inventory control and order entry. It's ready when you are for e-business. Like Enterprise Edition, Corporate Edition supports both Pervasive.SQL® and Microsoft SQL Server databases. And because it is built on the same superior architecture as the Enterprise Edition, you'll find it's easy to move up as your business needs expand.

Customer Profile

Corporate Edition is right for your medium-sized business if you need feature-rich sophistication, ease of use and speed in a technologically advanced solution with precision and technology integration and need no more than 10 concurrent users.

"We wanted a financial management system that had the enhanced flexibility of Windows, and could generate real-time financial statements. The ACCPAC Advantage Series Corporate Edition's sophisticated reporting capabilities and its integration with Excel enable us to perform statistical analysis of occupancy rates and to track food and beverage revenues and costs. We also benefit from the system's real-time cash management functionalities."

*Mark Everton
Controller of the world-famous Clift Hotel*

Take advantage of powerful AR reporting and analysis features to make the most out of your customers and contacts.

Discovery Edition

ACCPAC Advantage Series™ Discovery Edition is the ideal solution for clients searching for powerful yet affordable financial management software that offers unmatched functionality, a clear upgrade path and rock-solid stability all rolled into a quick-to-implement solution. Discovery Edition is just what you need if you're seeking an integrated business management system for small accounting environments with as many as three concurrent users.

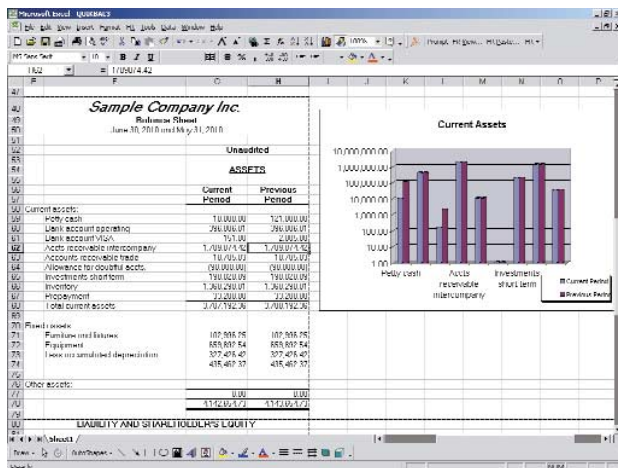

ACCPAC Advantage Series Discovery Edition includes the accounting functions you use most—General Ledger, Accounts Payable, Accounts Receivable, Bank Reconciliation and Payroll—in one fully integrated suite. You'll also enjoy the extensive reporting capabilities included in Seagate Crystal Reports®. Inventory Control, Order Entry, Purchase Orders and Multicurrency modules are also available. And when you're ready to put your business on the Web, Discovery Edition and the ACCPAC

eAdvantage Suite™ provide you with a comprehensive e-business solution.

Customer Profile

Discovery Edition is perfect for you if you're a small company seeking an upgrade from ACCPAC Plus™ or BPI® products, or if you have outgrown an entry-level retail product. It's easy to set up, and easy to use, with wizards that make configuration a breeze—and gets you up and running fast with a familiar, easy-to-navigate Windows interface. If you're seeking a secure investment, Discovery Edition ensures that your accounting solution evolves with your business. It's built on the same rock-solid architecture as the Corporate Edition and Enterprise Edition, so when your business growth demands greater power, the investments you've made to fine-tune Discovery Edition are completely preserved.

The Discovery Edition customer requires affordable, powerful financial management tools, extensive reporting capabilities, e-business readiness and a secure growth path and needs no more than three concurrent users.

Powerful and flexible financial reporting—fully integrated with Microsoft Excel

"I have used ACCPAC Advantage Series Discovery Edition for a while now, and have been more than pleased with the comprehensive accounting it provides and how easy it's been to use."

Randy Ockerman
Bookkeeper, Lethbridge University

End-to-End E-Business Solutions

ACCPAC Advantage Series is fully integrated with ACCPAC eCRM, ACCPAC eTransact and ACCPAC iConnect solutions, allowing you to operate your e-business efficiently and affordably from end to end. ACCPAC Advantage Series may be deployed internally or accessed as a hosted application at ACCPAC Online—whichever best fits your business' needs.
